

Bella Custom Homes, family owned and operated offers quality that speaks for itself. Bella has been building luxury residences, developments and town homes in the Dallas metroplex since 1993. Establishing itself as one of the premier luxury custom builders, they have crafted fine homes in some of the metroplex's most prominent neighborhoods.

Second-generation builder, Bella president Tony Visconti has had nearly two decades of experience in every facet of the home building industry. Tony's proficiency with blue print evaluation, cost estimating, labor and material scheduling and building codes/inspection is joined with his wife Eleanor's background in design, marketing and project management. Bella has the expertise as well as the desire to create a beautifully appointed home. They are dedicated to not only serving their clients individual needs with one-on-one service and great attention to detail but also in upholding their high standards of quality design and finish out.

Tony and Eleanor invite you to visit their model home "Villa Bella Vista" located within Starwood in Frisco. "Villa Bella Vista" will be furnished by Anderson's Furniture and Design Gallery and is set to debut in September 2004.
